LVAC

(Low Visibility Armor Carrier)

The Low Visibility Armor Carrier was developed to be worn under an outer shirt creating a lower profile signature when operating discreetly. Provides a great armor platform for covert and overt operations.

LVAC is a very lightweight, flexible, comfortable vest that can be worn under a vest, shirt, chest rig, with ease. Sometimes we pass over simple for complex and the latest and greatest. LVAC platform has been an industry leader for simplicity, user friendly, and providing maximum protection.

FEATURES:

☑ Outer cover is made from 500D Cordura, and inner is made with an anti-microbial material.

☑ Fits SPEAR/BALCS SAPI and ESAPI Front/Rear plates (sizes S-XL)

☑ Vest sizes correspond to SPEAR/BALCS Armor sizes

☑ Size SMALL - accommodates BALCS small panels and up to 8.75" x 11.75" plates

☑ Size LARGE - accommodates BALCS large panels and up to 10.25" x 13.25" plates

☑ No armor included
